

## **WED 586 Developing Programs for the Adult Learner**

### **Mission Statement Assignment**

**25 points**

**Due Thursday, March 19<sup>th</sup>**

Up to this point, you reflected on your passion for an adult population and/or a topic to teach adult learners, analyzed the context for planning, researched your adult learner population and the need for your program, and interviewed an adult program director/facilitator. You are now ready to develop a mission statement for your program. You may have an overarching organizational mission, but you must develop a mission to suit your individual program. Complete a mission statement using the sample on page 97 of your textbook as the template. Be sure to have all of the areas completed.

**NOTE:** Five points will be deducted for each incomplete mission statement section.
