

## PIN Number Information

Your username/ID to access Saluki net is your Student Identification number with no spaces or dashes. Your PIN number would either be the day and year of your birth (i.e. 02/15/98 PIN 1598) or an assigned number, given by the admissions office.

Students enrolled at SIU before 2002, will have a PIN number set to the day and year of your birth. If you have not applied to the University since that time, your PIN should still be set at the day and year of your birth. If you applied to the University after January 2003, you would have been assigned a random number, which would have been included on your admissions letter.

If you are requesting your PIN number and the semester has not started yet, please contact the Admissions office to have your PIN mailed to you. The Admissions Office will accept written or faxed request, but will only mail your request to original address where the first PIN number was sent.

**Requests must be made by Mail or by Fax, E-mail is not an option, and PIN numbers are not given over the phone.**

Listed below are the address and fax numbers where requests can be sent as well as the PIN Number Request Form.

**Send To: (Before the semester starts)**
